Case of the Disappearing Planet

This show explains that Pluto didn't just disappear, it's simply no longer classified as a planet! This show talks about how the way we've defined a planet has changed throughout time. Case of the Disappearing Planet is an excellent school show that covers these [Ohio Education Standards](#):

5th Grade

EARTH AND SPACE SCIENCE (ESS)

- ✓ **The solar system includes the sun and all celestial bodies that orbit the sun. Each planet in the solar system has unique characteristics.**
 - The distance from the sun, size, composition and movement of each planet are unique. Planets revolve around the sun in elliptical orbits. Some of the planets have moons and/or debris that orbit them. Comets, asteroids and meteoroids orbit the sun.
